Purpose Statement

The purpose of this series of Live Meetings is to educate health care providers about the applications of medical statistics in research and clinical decision making process. Use of statistics is inevitable in medical research and the accurate interpretation of statistical results may pose a challenge for healthcare providers. In this series, statistical terms will be introduced and different techniques for data analysis will be discussed. At the end of the course a medical health care provider should be able to carry out basic statistical analysis and also examine the merit of presented statistical material in research papers.

Target Audience

Physicians, nurses and other health care providers interested in research opportunities or those looking for a better grasp of statistics for understanding the value of information shared in research documents.

Outcome/Objectives

At the conclusion of this educational program, learners will be able to:

1. identify the methods of data display and the appropriateness of these methods in describing different types of data;
2. describe the common errors in research and the ways to avoid these errors.

Disclosure Statement

The VA Employee Education System (EES) must ensure balance, independence, objectivity, and scientific rigor in all of its individually sponsored or jointly EES sponsored educational activities. All prospective faculty and planning committee members participating in an EES activity must disclose any relevant financial interest or other relationship with: (a) the manufacturer(s) of any commercial product(s) and / or provider(s) of commercial services discussed in an educational presentation, and (b) any commercial supporters of the activity. Relevant financial interest or other relationship includes, but is not limited to, such things as personal receipt of grants or research support, employee or consultant status, stockholder, member of speakers' bureau, within the prior 12 months. EES is responsible for collecting such information from prospective planners and faculty, evaluating the disclosed information to determine if a conflict of interest is present and, if a conflict of interest is present, to resolve such conflict. Information regarding such disclosures and the resolution of the conflicts for planners and faculty shall be provided to activity participants. When an unlabeled use of a commercial product or an investigational use not yet approved by the FDA for any purpose is discussed during an educational activity, EES shall require the speaker to disclose that the product is not labeled for the use under discussion or that the product is still investigational.

The faculty and planning committee members reported that they had no relevant financial relationships with commercial entities in any amount that occurred within the past 12 months that create a conflict of interest.

This activity includes no discussion of uses of FDA regulated drugs or medical devices which are experimental or off-label.

* The ACCME defines "relevant financial relationships" as financial relationships in any amount occurring within the past 12 months that creates a conflict of interest.
