VA National Epilepsy Consortium Membership

The National VA Epilepsy Consortium is a network of VA physicians, nurses, therapists, pharmacists, and other allied healthcare providers with interest and expertise in improving the health and well-being of Veteran patients with epilepsy and related seizure disorders through the integration of clinical care, education, and research across the VA healthcare system.

All clinicians who serve Veterans with epilepsy and related seizure disorders (regardless of capacity) are invited and encouraged to register as a National VA Epilepsy Consortium Member. Membership is free and grants access to a variety of epilepsy educational resources and updates from the ECoE. You can register today by completing and forwarding the application below. Interested members are encouraged to contact the Epilepsy Center of Excellence to discuss further this opportunity.
